

International Conference

 **Critical Issues for the** 

Third Leap in Food

Production at the Global

Level

**October 26,
2022**

About the event

Jointly organized by:

Forum of the Future Institute
World Bank
International Fund for Agricultural Development
Federal University of Viçosa
AKSAAM Project

Purposes:

- 1.** To show the role of **tropical bioeconomics in the debate on sustainable development models**, including themes that impact food safety, the social and technological inclusion of small and medium farmers in the world tropical zone..
- 2.** To propose alternatives for environmental challenges (deforestation, soil degradation and loss of biodiversity) to become strategic solutions to the planet and the welfare of society.
- 3.** To promote the **sharing of agendas** by central players in promoting sustainable development on **strategic issues**, particularly related to the landing of the available technological potential, not used by the productive sectors and whose value is not perceived by society.

 **October 26, 2022**

 **World Bank headquarters in Brasilia**

 **Participation Format: Virtual**

Schedule

09:30 am – 10:00 am Brasília time (GMT–3) Opening

Alysson Paolinelli - President of the Forum of the Future Institute

Diego Arias – Practice Manager, Agriculture LAC, World Bank
